Mr. Vernon E. Bishop
Chief, Education and Training Staff
Office of Security
Department of State
Washington, D.C., 20520

Dear Mr. Bishop:

Under separate cover we are forwarding six copies of the film you requested in your letter of 14 January 1975. A review of the classification of the film has resulted in a determination that the "Confidential" level be maintained and that the film not be shown to foreign nationals without prior approval by this Agency. Furthermore, the "need to know" principle must be applied to any contemplated audience.

It is necessary for us to request reimbursement in the amount of \$660.00 for the cost of reproduction of the film. At your earliest convenience, please provide Mr. [REDACTED] of this office with an account and reference number against which we can charge the cost.

STATINTL

Sincerely,

STATINTL

MEMORANDUM FOR: Director of Training
SUBJECT : Defensive Driving Film

1. Reference is made to your inquiry about the advisability of releasing six copies of the Defensive Driving Film to the Department of State, which has agreed to reimburse us for the costs.
2. It is my understanding that there is considerable confusion as to whether the film has technically been declassified. Our background papers, however, clearly indicate that distribution should be somewhat "selective" and controlled so that we do not lose the value of the special techniques that are involved. Various Directorate of Operations elements have urged quite strongly that if the film is provided to the Department of State, a NOFORN caveat should be added so that State would be required to seek prior approval for showings to foreigners. It is to be noted that the Department of State was earlier provided with one retention copy, with "need-to-know" restrictions.
3. In an effort to strike a reasonable and acceptable compromise, I suggest we adopt the following approach:
 - a. Release three classified versions of the film and attempt to hold the line on further releases on grounds of security. We want reimbursement.
 - b. Make it completely clear, in writing, that the "need-to-know" restriction continues to apply, and it is strictly NOFORN. It should not be shown to foreign nationals without prior Agency approval.

MEMORANDUM FOR: Chief, Pictorial Services Branch, CRS

SUBJECT : OTR Film, "Countering Vehicular Kidnapping";
State Department Request.

1. This memorandum confirms our telephone conversation of 28 July concerning the State Department request to exchange the six prints of subject film sent to them earlier this year for a like number of prints of the revised version of the film (that which includes the foreign car tests). In addition, we will recall the retention copy of the film which was sent to State in 1972 and replace it with the revised version. Please take steps to have seven prints of the revised version available for transfer to State as soon as possible. If you will notify me when they are ready, I will arrange to have a courier from State come to the Chamber of Commerce Building to pick them up.

2. When State has distributed the revised versions of the film, the original versions will be returned to us and I will forward them to you for filing. In case the question should come up, the revised versions for State must be classified according to existing instructions: "Confidential-NO FORN".

3. Attached is a copy of the letter from State requesting this exchange. A copy of my memo to you and of the State request will be sent to [REDACTED] for his information. Please call if I can be of further assistance.

MEMORANDUM FOR: Chief, Pictorial Services Branch, CRS

ATTENTION: [REDACTED]

SUBJECT : OTR Film, "Countering Vehicular Kidnapping"

1. I have been unable to find any written request or any person who can recall an OTR request to CRS to cease incorporating the foreign car segment into the film "Countering Vehicular Kidnapping." We assume, therefore, that you will continue to put together the "revised version," i.e., that which contains segments on both domestic and foreign cars.

2. The request of 14 January 1975 from the Department of State for six copies of the film in question was assumed by us to refer to the version of the film which contains only the domestic car tests. Our assumption was based on the fact that a retention copy of that version was sent to State in September 1972. Perhaps this special arrangement, which omitted the foreign car segment, gave rise to the current confusion.

25X1

3. The memorandum of 11 February 1975, from the Deputy Director of Administration to the Director of Training states that the films to be sent to the State Department are to be "---classified versions---" and "---strictly NO FORN---." We subsequently determined that the precise classification to be applied was "Confidential." As you know, this determination postdates that of the declassifying memorandum signed by Mr. Brownman as DD/M&S. Therefore, until such time as we receive other instructions from the DD/A, we assume that all prints are to carry the "Confidential-NO FORN" classification and control.

4. I trust this will serve to clarify the questions you have regarding subject film. Should you need further assistance, please do not hesitate to call me.

Attached per your request is a report on the copies of the "defensive driving film" provided outside the Agency via CRS on which we have records, charges where applicable, and instructions concerning classification. Other copies may have been provided by another component. If you wish, we will round up a record on usage with non-Agency persons by our stations and other Agency components, but this would take a bit more time.
